Right business in the right country at the right time

India is one of the most attractive economic proxies in the world.

The country is the only one in the global top ten by economic size to have consistently enhanced its rank across the last two decades.

India, the fifth largest global economy, is expected to emerge as the world's third largest by the end of the decade.

This sustained growth is expected to generate larger opportunities for several businesses.

The one business that is attractively placed is that of Gandhar Oil Refinery.

The Company is engaged in the right business in the right country at the right time.

This unique positioning is expected to translate into sustainable value growth for the Company across the coming years.

Gandhar Oil Refinery (India) Limited.

An attractive proxy of the sustainable growth of the speciality oils sector.

Invested with adequate manufacturing capacity.

Reinforced by a diverse product mix.

Structured around a liquid Balance Sheet.

Run by a professional and experienced management team.

***Inspired by credibility.
Driven by profitability.
Built for sustainability.***

Our vision

To be a leading industry player by targeting sustainable growth in order to maximise value for all stakeholders.

Our roadmap starts with our vision, which is enduring. It declares our purpose as a company and serves as the standard against which we weigh our actions and decisions.

Our background

Gandhar Oil Refinery India Limited, incorporated in 1992, is engaged in the specialty oil industry. The Company was started by Mr. Ramesh Parekh, who is also the current chairman.

The Company is ISO 9001:2008, ISO 14001:2004, OHSAS 18001-certified, and FDA-approved for manufacturing pharmaceutical-grade mineral oils.

The Company was historically engaged in coal trading; however, trading revenue has declined and been segregated from the Gandhar Group in line with the promoter's vision of deepening its presence in the specialty oil industry (particularly the white oil segment).

The Company enjoys a leading share of the Indian white oils market coupled with significant international sales, addressing the consumer and healthcare industries.

It possesses an extensive and diversified customer and supplier base, consisting of leading oil companies.

The Company was India's largest manufacturer of white oils and one of the top five players globally in the last few years.

The Company enjoys long-standing relationships with several leading Indian and global companies.

Our products

Gandhar is engaged in manufacturing white oils and other allied products that enjoy applications in cosmetics, healthcare, pharmaceuticals, and chemical segments, apart from lubricants (industrial and automotive oils) and other specialty oils (transformer oils and rubber processing oils).

The Company's products (marketed under the Divyol brand) comprise automotive oils, industrial oils, transformer oils, rubber process oils, mineral oils and petroleum jelly, wax, and speciality base oils.

The products meet national and international quality standards approved by Rexroth, Elecon, RDSO, FDA, ERDA, CPRI, and BIS, among others.

Capacity and presence

The Company possesses an installed capacity of 5,97,403 kiloliters (KL). The manufacturing facilities at MIDC Taloja and Silvassa address overseas and domestic markets, respectively. The Company operates three manufacturing facilities in Taloja (Maharashtra), Silvassa (Dadra and Nagar Haveli) and Sharjah (UAE). Overseas sales contributed 58.46% of consolidated revenues for FY 2023-24 from the sale of products.

Our diverse customers

The Company addresses leading Indian and global companies including Procter & Gamble, Unilever, Marico, Dabur, Emami, Bajaj Consumer Care, Amrutanjan and Encube, among others.

Our strong supplier base

The Company transitioned to direct purchases from base oil suppliers and building relationships with leading global base oil suppliers.

Our employees

As of March 31, 2024, Gandhar Oil Refinery India Limited comprised a workforce of 381 employees.

Our credit rating

The Company was rated by Acuite Ratings and Research as follows:

**Chairman's
message**

Ramesh Parekh
Chairman

Gandhar Oil is a faithful proxy of global economic growth. The more the world grows, the better placed our company will be to ride that growth and enhance value for stakeholders in a sustainable way.

Overview

I present my maiden communication to stakeholders following the initial public offer of the Company during the last financial year. This communication will review the Company's performance of FY 2023-24, outline the business model that has got us there and the initiatives intended to take us ahead.

Performance review, FY 2023-24

Your company reported a consolidated revenue of ₹4,113.21 Crore in FY 2023-24. EBITDA of ₹278.72 Crore and net profit was ₹165.31 Crore in FY 2023-24. Return on Capital Employed stood at 23.79%; EBITDA margin moderated from 7.78% to 6.77%.

However, the Company's liquidity hygiene continued to be protected. We believe that in a volatile world with a premium in corporate liquidity, this represents a robust business advantage. The Company's net cash position strengthened from ₹2.51 Crore to ₹52.56 Crore from year-start to year-end. Interest cover increased from 37.76 to 38.10 through the year, indicating that the Company continued to remain cash rich and under-borrowed with a debt-equity ratio of 0.02.

The relatively flat performance was the result of a decline in FMCG and

pharmaceuticals offtake during the third and fourth quarters of the last financial year. This moderated revenues and realisations, affecting overall profitability. Had this decline not transpired, the Company would have reported revenue growth in FY 2023-24. The disturbance in and around Red Sea issue increased freight costs for exports, affecting margins.

I am pleased to communicate that this relative under-performance did not impair the Company's Balance Sheet. The Company's terms of trade cum liquidity continued to represent a robust foundation on which the Company expects to scale the business as soon as industry realities revive. It would also be pertinent to indicate that manufacturing volumes increased 12% from 433498 KL in FY 2022-23 to 485570 KL in FY 2023-24, indicating a traction for our products on account of a superior price-value proposition.

Responsive

At Gandhar Oil, we strengthened our competitiveness during the last few years by enhancing the responsiveness of our business model. This represented an extension of our commitment to push the frontier across operating parameters, seek incremental margins from finding better ways of doing things and generating more from less.

During the last few years, the Company discontinued the practice of procuring base oil through intermediaries and commenced the practice of buying directly from oil refineries. This direct engagement enhanced quality assurance, resource customisation, on-time cum in-full resource access and volume-based discounts. By engaging directly with resource suppliers, the Company strengthened the credibility of the business model, enhancing in turn the confidence of customers that the Company possesses a stable resource pipeline leading to a predictability of supply.

The India story

The principal message that I seek to communicate is that Gandhar Oil is engaged in the right business in the right country at the right time.

Never before has India been as optimistic about its prospects as now. The reasons are evident: China's economic growth in percentage terms is slowing from its erstwhile average, Britain and Japan have entered a recession, US economic growth appears tentative and while all this is transpiring, India continues to grow around 8%.

There are no two opinions about the fact that this growth is being driven by the economic emergence of rural and semi-urban India. The broad-based

policies of the last decade and the trickle-down effect of the Indian economy have resulted in the emergence of rural India as a robust consumption driver. The country's consumption is being sustained on account of increased consumption and a desire to live better.

The result is that the conventional understanding of rural poverty is transforming. India's poverty rate of 4.5-5% in FY 2022-23 represented a sharp decline from what it was a decade ago; rural poverty declined to 7.2% in FY 2022-23 from 25.7% in 2011-12 (Source: Household Consumption Expenditure Survey). The gap between urban and rural household consumption narrowed; rural household spending increased 2.6 times and urban household spending strengthened 2.5 times since 2011-12.

The outcome of this transformation is remarkable. India is expected to contribute 24% to the global middle-class growth (192 Million people). A decade ago, India's GDP was the 11th largest in the world; last year, India emerged as the fifth

largest economy and is likely to move into fourth place by 2025, third by 2027 and emerge as a USD 10 Trillion economy in the next decade.

The one sector where the pass-through of India's economic growth will reflect more visibly will be in the use of specialised lubricants. As Indians earn more, they will need to live better. This will translate into the need for more vehicles and products (industrial and personal). Inevitably, this aspiration is expected to translate into a growing demand for specialised lubricants. What makes me particularly optimistic of prospects is the vast gap between the consumption numbers of India and China. Even as India's population is higher than that of China, India's specialised lubricants consumption per capita is considerably lower than in a peer country like China, highlighting a headroom for growth. This indicates that as India's personal incomes increase, there will be a quicker pass-through into specialised lubricants offtake, narrowing the consumption difference between the two countries.

Competitive advantages

As the India growth story accelerates and the consumption difference between China and India declines, we expect sustained outperformance by a company like Gandhar Oil.

The Company expects to build around a number of competitive advantages.

- The Company enjoys scale and related economies by the virtue of being among the five largest white oil players in the world and the largest in India. The Company generated 70% of its revenues from repeat customers of three years or more, indicating that the business enjoys growth visibility. The Company enjoys cost leadership that makes it possible to remain liquid and profitable even during industry downtrends.
- The Company broadbased its revenue profile across more than 3500 customers, empowering it to capitalise

on their growth on the one hand and protecting it from revenue diminution in the event of selective customer attrition.

- The Company controlled its overall receivables cycle at 68 days of turnover equivalent with a nominal incidence of bad debts, protecting overall cash flows. The Company leveraged its relationships with large refineries to nurse a lower inventory (around 36 days of turnover equivalent) that was half the industry average. The Company continued to grow the business around an under-borrowed Balance Sheet. Terms loans as on March 31, 2024 were a negligible ₹7.15 Crore; debt-equity ratio was 0.02 as on March 31, 2024 and only a small percent of the fund-based working capital sanction had been called up during the year under review.

- The Company accounts for a sizable share of the Indian PHPO market; this business segment accounted for 52.30% of the Company's revenues in FY 2023-24, deepening its relevance in the sector and indicating revenue visibility on which to build the Company. The result was that the Company enjoyed a credit rating of 'A' during the last financial year, validating the robustness of its business model.

Optimism

At Gandhar Oil, we see India's economic outperformance to be driven by increased rural spending in line with enhanced lifestyles and population growth. This upturn is likely to be sustained by progressive government policies, increased foreign direct investment and growing capital investments.

At Gandhar Oil, we expect to capitalise on these realities. The Company expects to outperform the growth of downstream sectors with enhanced sales to each, resulting in a larger wallet share and market share. The Company intends to widen its geographic footprint, enter relatively under-explored pockets of Asia and Africa while making a decisive entry into one of the largest markets in the world.

The current year will see benefits arising from the Company's enhanced investments – 100,000 KL capacity increase in the Taloja plant and 18,000 KL accretion in the Silvassa plant. The aggregate capacity increase should translate into an incremental revenue potential of ₹1,000 Crore at rated capacity

utilisation across the foreseeable future. Based on the existing outlook, the Company expects to build on revenues, capacity utilisation (especially the Sharjah plant) and net cash position during the current financial year.

The one factor gaining visibility is environment sustainability. At our company, sustainability envisions a balance, revolving around practices and priorities with a positive long-term impact on humans, eco-system and economy.

Besides, the Company is addressing environment priority through responsible waste disposal, energy use, resource sustainability, moderated greenhouse gas emissions, smaller carbon footprint and comprehensive environmental regulation compliance.

The Company recognises the significance of societal sustainability. We draw from society for our growth; it is our responsibility to nurture society in turn. In view of this, the Company has deepened its social responsibility through initiatives related to rural education, healthcare, poverty reduction, animal welfare and vocational training.

The Company's governance commitment comprises the coverage of stakeholders rights, eliminating interest conflicts within the Company, as well as focusing on performance-linked transparent remuneration to Directors.

Conclusion

These realities and fundamental strengths make Gandhar Oil a faithful proxy of the economic growth of the world, especially India. The more these regions grow, the better placed the Company will be to ride that growth and enhance value for stakeholders in a sustainable way.

I must thank all stakeholders for their trust and confidence in our business model. The stability of their engagement with our company provides us with the confidence to keep investing in our business, strengthening our competence and deepening our multi-year business sustainability.

STRATEGIC OUTLOOK

The strategies by which we expect to sustain our growth

Enhanced focus on the consumer and healthcare end-industries

End-use industries, such as pharmaceuticals and consumer products, are anticipated to experience significant growth driven by strong domestic consumption, favourable demographics and government initiatives.

To leverage its relationships with existing customers in the consumer and healthcare end-industries, the Company will expand wallet share with existing customers and acquire new customers among downstream sectors.

Continue to increase overseas sales by strategically expanding product offerings

To support global growth, the Company is focusing on increasing its penetration in existing geographies, entering new geographies based on customer relationships and leveraging existing customer relationships to expand into manufacturing ingredients for key customers, (particularly in the PHPO division, addressing geographies like Indonesia, Europe, and the United States).

Strengthen the customer base

The Company intends to grow opportunities by expanding the array of

products and solutions offered to existing customers, winning new customer accounts by developing products and solutions aligned with their needs and climbing the value chain by expanding contract manufacturing services for finished products to customers.

Strengthen our manufacturing and R&D capabilities

The Taloja plant capacity has been enhanced by 100,000 KL in FY 2023-24; 18,840 KL was added to the Silvassa plant to address the increasing demand for automotive oils.

HEALTH, SAFETY AND ENVIRONMENT

HSE represents the cornerstone of our business

Overview

At Gandhar Oils, Health, Safety, and Environment (HSE) are of paramount importance. We are committed to foster a safe and healthy work environment while minimising environmental impact. HSE is therefore not just a regulatory requirement; it is a fundamental extension of our ethos and operational strategy.

A robust HSE framework is essential for the well-being of our employees, the sustainability of operations, and success of our business. By prioritising HSE, we aim to protect our workforce, ensure

compliance with industry standards, and contribute to the long-term environmental sustainability of the communities in which we operate.

HSE policy

Our HSE policy focuses on identifying potential hazards, preventing accidents, and implementing robust safety measures. Adherence to HSE standards is essential to protect our plant and employees. Non-compliance could lead to serious consequences, including accidents and regulatory penalties.

Ensuring healthy and safe working

To ensure a healthy and safe working environment, we implemented the following measures:

Environment

The 'E' in HSE, environmental criteria, comprises the energy that we consume and the waste we discharge, the resources we need, and the consequences of our actions on living beings. Besides, 'E' comprises carbon emissions and actions related to climate change.

Our environment approach has been woven around the elements of Plan-Mitigate-Adapt-Resilience.

Robust internal controls: There is a growing commitment to strengthen environmental management systems, conduct environmental due diligence and build disaster planning & response systems across our manufacturing facilities. At Gandhar Oils, the promoter has charted out a strategic direction and delegated day-to-day management to professionals. The Company has deepened an investment in processes and systems, especially information technology. Besides, it has strengthened an audit-driven and compliance-driven approach, enhancing process integrity.

The Company has not incurred statutory penalties in its existence.

Building resilience towards climate change: There is a commitment to reduce energy intensity, reduce greenhouse as emission intensity and graduate to cleaner processes and fuels

Reduce our impact on environment and nature: The Company will invest in assets, equipment, people, processes and practices to moderate the carbon footprint.

Audit discipline: The Company has an audit and compliance-driven approach, enhancing the credibility of its performance and processes to remain committed beyond the basic compliance requirement.

Key initiatives, FY 2023-24

- The Company implemented a sustainable energy solution by installing solar panels for electricity generation.
- The Company established a rainwater harvesting system, storing water in tanks

to be utilised in the plant after the rainy season.

- The Company is committed to implementing robust environmental practices for pollution control and prevention. We adhere to environmental laws and consistently strive to exceed compliance standards.
- The Company's 650 Lakh liter fire water storage tank is filled with harvested rainwater.
- The Company's sewage water treatment plant processes drain water for gardening, effectively reducing our wastewater usage.
- The Company's environment management mitigates potential harm from waste disposal. We responsibly dispose waste oil-soaked cotton through government-approved partners and actively encourage our suppliers to recycle plastics.
- The Company maintains a garden on the premises with a variety of trees to enhance oxygen levels and protect the environment.

Strengthening environment management

OUR COMPLIANCE

Our health and safety standards

Overview

At Gandhar Oils, Health and Safety are integral components of our Health, Safety, and Environment (HSE) commitment. We recognise that maintaining a safe and healthy work environment is crucial for the well-being of our employees and the efficiency of our operations. Our dedication to health and safety is reflected in our comprehensive policies, continuous employee education, and rigorous enforcement of safety regulations.

Our commitment to health and safety is validated by certifications from Intertek, an external regulatory body. CORPORATE SOCIAL RESPONSIBILITY

How we are helping build prosperous communities

Overview

Gandhar Oil considers itself as a responsible corporate; our corporate citizenship is defined by social responsibilities.

Our engagement in corporate social responsibility projects are aligned with national and regional priorities. We extend beyond mere 'cheque-writing' to a deeper engagement with the objective to make a lasting positive difference. We believe in making initial investments where a moderate engagement from our side can translate into disproportionately larger societal impact.

Gandhar Oil engages in programmes (community livelihoods, strengthening healthcare, promoting education and environment initiatives) relevant to grass-root existences. The Company's engagement is directed by a CSR Policy, implemented under the guidance of a CSR Committee and senior management.

At Gandhar Oil, we prioritise sustainable community development through

strategic partnerships with NGOs and government entities to ensure the longevity of our CSR initiatives. We employ robust monitoring and evaluation frameworks to assess the impact and efficacy of our projects, ensuring they meet their intended goals. Additionally, we actively engage our employees in these efforts, fostering a culture of social responsibility within our organisation and empowering our team to contribute meaningfully to the communities we serve.

CSR vision

Gandhar Oil Refinery India Ltd aims to contribute to society by focusing on sustainable development, community welfare, and environmental stewardship.

CSR priorities

Secretarial Audit Report

For the Financial Year ended March 31, 2024

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies]
(Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Gandhar Oil Refinery (India) Limited
Mumbai

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Gandhar Oil Refinery (India) Limited** (CIN: L23200MH1992PLC068905) and having its registered office at DLH Park, 18th Floor, S. V. Road, Goregaon (West), Mumbai - 400062 (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the company's books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on March 31, 2024 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2024 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) The Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-

- (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
- (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
- (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
- (d) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021;
- (e) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021 (Not applicable to the Company during the audit period);
- (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
- (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021 (Not applicable to the Company during the audit period);
- (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 (Not applicable to the Company during the audit period); and
- (i) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("LODR Regulations").
- (vi) There are no laws that are specifically applicable to the company based on their sector/industry.

We have also examined compliance with the applicable clauses of the Secretarial Standards issued by The Institute of Company Secretaries of India;

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Standards etc. as mentioned above.

We further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings; agenda and detailed notes on agenda were sent at least seven days in advance except few Board Meetings of the company during the year under review were held at shorter notice with the consent of the directors and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views, if any, are captured and recorded as part of the minutes. However, in the minutes of the meetings of Board and its Committees, for the period under review, no dissents were noted and hence we have no reason to believe that decisions by the Board were not approved by all the directors present.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines and standards.

We further report that during the audit period:

Management Discussion and Analysis

Global economy

Overview: Global economic growth weakened from 3.5% in 2022 to around 3.1% in 2023 and this may have been worse but for global growth from Asia, which was marked by a weaker-than-expected recovery in China and a better than expected growth in India.

The global economy was marked by a sustained weakness in USA, Britain and Japan entering a recession and most economies of Europe grappling with high energy costs, weak global consumer sentiment on account of the Ukraine-Russia war, and the Red Sea crisis resulting in higher logistics costs. A tightening monetary policy translated into increased policy rates and interest rates for new loans.

Growth in advanced economies is expected to slow from 2.6% in 2022 to 1.5% in 2023 and 1.4% in 2024 as policy tightening deepens. Emerging markets and developing economies, mainstay of the global economy, are projected to report a modest growth decline from 4.1% in 2022 to 4.0% in 2023 and 2024. Global inflation is expected to decline steadily from 8.7% in 2022 to 6.9% in 2023 and 5.8% in 2024, due to a tighter monetary policy aided by relatively lower international commodity prices. Core inflation decline is expected to be gradual; inflation is not expected to return to target until 2025 in most cases. The US Federal Reserve approved a much-anticipated interest rate hike that took the benchmark borrowing costs to their highest in more than 22 years.

Global trade in goods was expected to have declined nearly USD 2 trillion in 2023; trade in services was expected to have expanded USD 500 billion. The cost of Brent crude oil averaged USD 83 per barrel in 2023, down from USD 101 per barrel in 2022, with crude oil from Russia finding destinations outside the European Union and global crude oil demand falling short of expectations.

Emerging and developing economies	4.3	4.1	3.8

(Source: UNCTAD, IMF)

Outlook: Asia is expected to continue to account for the bulk of global growth in FY 2024-25. Inflation is expected to ease gradually as cost pressures moderate; headline inflation in G20 countries is expected to decline. The global economy has demonstrated resilience amid high inflation and monetary tightening, growth around previous levels for the next two years (Source: World Bank).

Indian economy

Overview: The Indian economy was estimated to grow 7.8% in the FY 2023-24 fiscal (the country adding more than 8% in some quarters) against 7.2% in FY 2022-23 mainly on account of the improved performance in the mining and quarrying, manufacturing and certain segments of the services sector. India retained its position as the fifth largest economy. The Indian rupee displayed relative resilience compared to the previous year; the rupee opened at ₹82.66 against the US dollar on the first trading day of 2023 and on December 27 was ₹83.35 versus the greenback, a depreciation of 0.8%. Since February 2023, the RBI has maintained the repo rate at 6.5%. Tasked by the government to keep retail inflation around 4%, with a tolerance range of 2% on either side, the RBI aims to stabilize inflationary pressures. As of April 2024, retail inflation was recorded at 4.83%, highlighting the RBI's ongoing efforts to manage inflation within the specified target range.

In the 11 months of FY 2023-24, the CPI inflation averaged 5.4% with rural inflation exceeding urban inflation. Lower production and erratic weather led to a spike in food inflation. In contrast, core inflation averaged at 4.5%, a sharp decline from 6.2% in FY 23. The softening of global commodity prices led to a moderation in core inflation.

The nation's foreign exchange reserves touched a milestone of USD 645.6 billion. The credit quality of Indian companies remained strong between October 2023 and March 2024 following deleveraged Balance Sheets, sustained domestic demand and government-led capital expenditure. Rating upgrades continued to surpass rating downgrades in H2 FY24. The Interim Union Budget FY 2024-25 retained its focus on capital expenditure spending, comprising investments in infrastructure, solar energy, tourism, medical ecosystem and technology.

As per the first advance estimates of national income released by the National Statistical Office (NSO), the manufacturing sector output was estimated to grow 6.5% in FY 2023-24 compared to 1.3% in FY 2022-23.

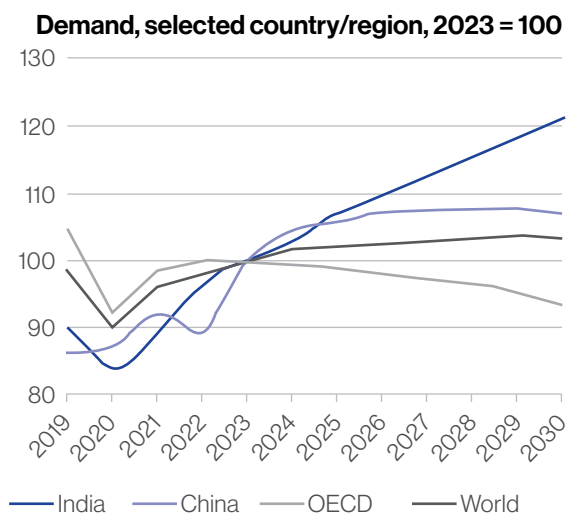

India's per capita disposable income is expected to be ₹2.14 lakh in FY 2023-24, an 8% increase in FY24. India's gross national disposable income, which includes net primary income and global transfers, is expected to expand 8.9% in FY24 (after 14.5% in FY23). India's gross savings were largely maintained around the earlier level of around 30%. The increase in disposable income is anticipated to stimulate demand across sectors, particularly benefiting fast-moving consumer goods (FMCG) and pharmaceutical products, as consumers have more spending power. This trend is expected to bolster domestic consumption and contribute to economic growth.

India's exports of goods and services were expected to touch USD 900 billion in FY 2023-24 compared to USD 770 billion in the previous year despite global headwinds. Merchandise exports were expected to expand between USD 495 billion and USD 500 billion, while services exports were expected to touch USD 400 billion during the year.

Outlook: India withstood global headwinds in 2023 and is likely to remain the world's fastest-growing major economy on the back of growing demand, moderate inflation, stable interest rates and robust foreign exchange reserves. The Indian economy is anticipated to surpass USD 4 trillion in FY 2024-25. The Asian Development Bank (ADB) upgraded India's gross domestic product (GDP) growth forecast for 2024-25 (FY25) to 7% from 6.7% earlier, citing better prospects. With inflation moderating to a projected 4.6% in FY25, monetary policy could become less restrictive and catalyse bank credit.

India oil demand growth in a global context, 2019-2030

(Source: IEA)

Global oil sector overview

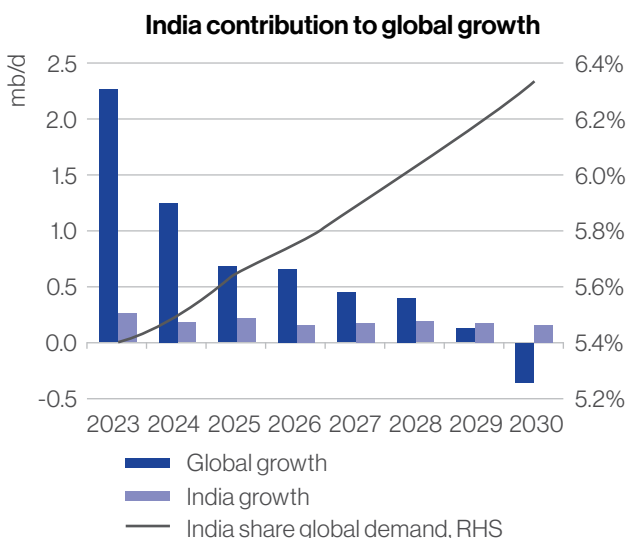

In 2023, oil demand reached 103 million barrels per day (MMb/d). However, this growth is not expected to be sustained for long, as peak demand is projected to occur before 2030 across four detailed energy transition scenarios.

These scenarios all indicate a relatively close timing for peak oil demand, likely between 2025 and 2030. This trend is driven primarily by efficiency improvements across various sectors and the increasing adoption of electric vehicles (EVs) in the passenger car market. Over the past two years, government investments in clean energy have predominantly been directed towards energy efficiency measures, including electrification. The ongoing electrification of transportation has notably contributed to the diminishing demand for oil. The rising popularity of EVs is forecasted to reduce oil demand by between 5 and 10 MMb/d by 2030, serving as a major distinguishing factor among the scenarios.

(Source: [mckinsey.com](https://www.mckinsey.com))

Indian oil sector overview

India is forecast to be the single largest source of global oil demand growth from 2023 to 2030, narrowly ahead of China. Underpinned by strong economic and demographic growth, the country is on track to post an increase in oil demand of almost 1.2 mb/d over the forecasted period, accounting for more than one-third of the projected 3.2 mb/d global gains.

Global industrial oil sector overview

The global industrial oil market size was valued at USD 60,410 million in 2023 and is anticipated to reach USD 78,610 million by 2030 growing at a CAGR of 3.7% during the forecasted period. The increasing industrialization and manufacturing activities, particularly in emerging economies, drive the demand for industrial oils to ensure smooth operation and maintenance of machinery, thereby boosting market growth.

The Asia-Pacific industrial oil market size was valued at USD 43.88 billion in 2023 and is expected to reach USD 70.44 billion by 2032, growing at a CAGR of 5.40% from 2023 to 2032. The Asia-Pacific region is expected to dominate the market for industrial oils in the coming years. Increased industrialization and increasing population will drive the growth of the market as the government in the Asia-Pacific region is increasing the amount of investment for setting up different industrial plans in order to get a row of the market demand.

Global automotive oil sector overview

The global automotive oil market is anticipated to achieve a valuation of USD 53,523.0 million by 2023. Over the period from 2023 to 2033, the market is forecasted to demonstrate a compound annual growth rate (CAGR) of 2.6%, reaching an estimated value of USD 69,185.3 million by 2033. Key factors driving this market include the increasing demand for conventional oil due to its cost-effectiveness in comparison to modern lubricants. Additionally, the growing popularity of synthetic automotive lubricants is driven by their superior performance and long-lasting protective qualities. The global automotive oil sector is set to grow steadily, with an anticipated annual growth rate of 2.6% from 2023 to 2033, even as electric vehicles (EVs) become more popular. This growth is because traditional internal combustion engine (ICE) vehicles and other machinery still need lubricants. It shows that the sector remains important as automotive technology changes supporting industries and transportation worldwide. Throughout the assessment period, the global automotive oil market is expected

to maintain a share of approximately 30% to 35% within the overall lubricants market. East Asia stands out as the leading region in terms of consumption within the automotive oil industry. (Source: [futuremarketinsights.com](https://www.futuremarketinsights.com))

Global white oil sector overview

In 2023, the global white oil market was valued at USD 43,723.23 million. The size of this market is expected to increase to USD 57,536.79 million by the year 2030, while growing at a compounded annual growth rate (CAGR) of 4.0%. Rising demand for personal care products such as skin care is expected to propel the growth of the mineral oil market. North America was the largest region in the white oil market in 2023. The Mineral oil market is driven by the pharmaceutical and personal care sector, contributing 40.50% and 35.91%, respectively. Together, these industries contribute to 76.41% of total revenue in the global mineral oil market. Indian white oil market overview

The Indian white oil market size is expected to register a modest growth at a CAGR of 1.80% for the time spanning 2024 to 2032. The key market drivers are the growing utilisation of white oil in various applications such as personal care and cosmetics, pharmaceuticals, and food.

The moisture-resistant properties of white oil are fostering its adoption in personal care and cosmetic products in India. White oil finds extensive application in the production of various water-resistant personal care items such as moisturizers, cosmetics, skincare products, baby products, hair oils, shampoos, body lotions, fragrances, and creams.

In the pharmaceutical sector, pharmaceutical-grade white oil, known for its purity, is integral in the manufacture of vaccines, lubricants for capsules, pelletizing aids, base formulations for ointments, and laxative jellies. The burgeoning pharmaceutical industry and the continuous development of novel products are further driving growth in the Indian white oil market. (Source: Expert Market Research)

Global petroleum jelly market overview

The petroleum jelly market is expected to witness a year-over-year growth of 3.7% in 2023, reaching a value of about USD 525.1 million by the end of 2023. The global business is projected to witness a growth rate of 4.2% over the forecasted period.

Growing demand for petroleum jelly as USP and technical in various end-use industries like pharmaceuticals, cosmetics and personal care, food, and others are anticipated to bolster the consumption rate in the coming years. It is projected that the global petroleum jelly demand to reach a value of USD 770.3 million by the end of 2033. (Source: [futuremarketinsights.com](https://www.futuremarketinsights.com))

APAC market

The Asia Pacific Base Oil Market is projected to grow significantly, with an estimated size of 16.88 million tons in 2024, reaching 21.10 million tons by 2029 at a CAGR of 4.56% from FY 2024-29.

The market's growth is driven primarily by the increasing demand for high-grade oils in the automotive sector and the rising need for

lubricants across various industries. However, volatility in crude oil prices poses a challenge to its market growth.

China, with its substantial vehicle production and sales, is expected to dominate the Asia-Pacific market during the upcoming five years - FY 2024-29. (Source: Mordor Intelligence)

Growth factors

Rising disposable incomes: India's gross national disposable income is expected to expand 14.5% in FY23 and further by 8.9% in FY24, reaching ₹2.14 lakh for the current fiscal year. This rise in disposable income is further anticipated to result in growth for the white oils segment in India.

Increase in population: The population in India increased by 13 million in 2023, resulting in a 1.44 billion strong people in the country. This ever-increasing population growth in the country is further anticipated to result in a rise in consumption for personal care and pharmaceutical products, resulting in higher usage of white oils.

Industry growth: The demand for white oil has increased in several developing and developed regions due to an optimistic outlook for expanding the pharmaceutical, personal care, food, and polymer processing sectors.

Increase in application: The product has witnessed a quick rise in the demand for adhesives and textile application areas.

Technical innovation: Despite a shortage of raw resources and a price decline, technical innovation will likely support the industry's steady growth over the next few years.

Increasing demand: With the growth of various industries such as pharmaceuticals, cosmetics, textiles, and plastics, there is a rising demand for white oils and mineral oils as raw materials.

Industrialisation and urbanisation: As the country continues to urbanise and industrialise, there's a parallel increase in the consumption of lubricants and specialty oils for machinery and automotive applications.

Automotive sector growth: The growth of the automotive sector, both in terms of manufacturing and usage, directly impacts the demand for lubricants and automotive oils.

About the Company

Gandhar Oil Refinery India Limited is a leading manufacturer of White Oils by revenue with a growing focus on the consumer and healthcare end-industries.

The product categories and primary end-industries for our three main business divisions are as follows:

Business division	Product categories	Primary end-industries
Personal care, healthcare and performance oils (PHPO)	White oils, waxes and jellies	Consumer; healthcare; plastics; chemical; textiles; and fragrance
Lubricants	Automotive oils and industrial oils	Automobile; and industrial machines and equipment
Process and insulating oils (PIO)	Transformer oils and rubber processing oils	Transformer manufacturers; power generation and distribution; and tyre and rubber product manufacturers

The Company was involved in two main businesses: non-coking coal trading through Gandhar Oil & Energy DMCC (Gandhar DMCC) and specialty oils. However, as part of a strategic move to concentrate on the specialty oils sector, the Company decided to divest its interests in the coal trading business.

In light of this decision, the Company successfully sold Gandhar DMCC to a group company named Gandhar Coals & Mines Pvt. Ltd. The sale was executed with the intention of allowing Gandhar Coals & Mines Pvt. Ltd. to take over and manage the coal trading operations effectively.

Additionally, the company executed a slump sale of its entire coal business to Gandhar Coals & Mines Pvt. Ltd. This action was a component of the company's overarching strategy to redirect its focus and resources towards the specialty oils segment, which offers greater strategic significance for future growth and profitability.

Through these transactions, the company has rationalized its operations, enabling it to exclusively concentrate on the specialty oils business. This repositioning sets the stage for heightened success and sustainability in its chosen field.

SWOT analysis of Gandhar Oil and Refinery

Strengths

1. Diversified product portfolio

The Company's diversified product portfolio of white oil, waxes, automotive oil, lubricants, industrial oils, greases, rubber processing oils and other petroleum-based product enables it to mitigate risks associated with reliance on a single product line.

2. Established market presence

The Company has developed a strong market presence and a reputable brand, fostering a customer loyalty and ensured repeat business.

3. Strategic location

The Company benefits from its proximity to rapidly growing Asian markets. This strategic location also facilitates easier access to raw materials and distribution channels.

4. Strong R&D capabilities

The Company invests in research and development to innovate and enhance product quality. This commitment has led to the creation of more efficient and eco-friendly products, meeting the rising demand for sustainable solutions.

5. Robust customer relationships

The Company has cultivated strong relationships with a diverse clientele, including FMCG, pharmaceutical, manufacturing, automotive and other industrial sectors. These relationships help secure long-term contracts and ensure steady revenue streams.

Weaknesses

1. Dependency on raw material prices

The Company's business is driven by volatile raw material prices. Fluctuations in these costs can significantly impact operating margins and overall stability

2. Environmental and regulatory compliance

Adherence to stringent environmental regulations can be costly and time-consuming, posing a challenge to the company

3. Limited global presence

While the company has a solid presence in India and parts of Asia, Africa, the Middle East, and the Far East, its footprint in other regions remains limited.

4. Exposure to market fluctuations

The Company's profitability is vulnerable to economic cycles, changes in demand, and industry-specific downturns, leading to potential fluctuations in financial performance.

Opportunities

1. Expansion into emerging markets

The Company has the potential to expand its presence in emerging markets such as Africa, Southeast Asia and Latin America, with rising industrial growth leading to growing demand for oil. Moreover, the USA presents a significant market opportunity for further growth.

2. Strategic partnerships and alliances

Forming strategic alliances with global players or entering joint ventures can enhance the company's technological capabilities, distribution network and product offerings

3. Innovation in eco-friendly products

With the growing demand for environmentally friendly and sustainable products, the company can capitalize on this trend by developing greener alternatives to traditional petroleum products.

4. Digital transformation

Adopting digital technologies and automation can enhance operational efficiency, reduce costs, and improve customer service, giving the company a competitive advantage.

Threats

1. Intense competition

The industry is highly competitive, with both local and global players vying for market share, potentially leading to price wars and squeezed profit margins.

2. Regulatory challenges

The industry faces increasing regulatory scrutiny related to environmental impact, safety standards and emission controls. Compliance can result in higher operational costs and potential legal liabilities.

3. Economic downturns

Global economic slowdowns or recessions can diminish demand for industrial oils and other products, adversely affecting the company's sales and profitability.

4. Technological disruption

Advances in alternative energy technologies, and a shift towards electric vehicles and renewable energy sources could reduce demand for traditional petroleum products, posing a long-term threat to the company's core business.

5. Geopolitical risks

The Company is exposed to geopolitical risks such as trade tensions, tariffs, and conflicts in key regions, which can disrupt supply chains, increase costs, and create market uncertainty.

Materiality in human resources

Materiality in human resources (HR) involves identifying and managing HR issues that are crucial to an organization's success and stakeholder interests. At Gandhar Oil, by focusing on key areas such as talent management, employee engagement, diversity, and compliance, we align our HR strategies with broader business goals, enhance risk management, and integrate social factors into our sustainability efforts. The process includes stakeholder engagement, assessing and prioritizing HR issues, and integrating these into strategic planning. Continuous monitoring and transparent reporting of material HR issues ensure that we remain responsive to evolving challenges and expectations, ultimately contributing to long-term business success. During the year under review, our talent strength was 381.

Risk management

Economic risk: Economic growth has the potential to impact the growth of the Company.

Mitigation: The Company aims to achieve growth by increasing its market penetration both in domestic and international markets.

Global base oil prices risk: The volatility of global base oil prices can significantly affect Gandhar Oil Refinery's revenue and profitability.

Mitigation: The Company may reduce this risk by diversifying its product portfolio to include more stability that can reduce dependency on oil prices.

Regulatory risk: Changes in environmental regulations, taxes, or policies related to the oil and gas sector could increase operational costs or limit business operations.

Mitigation: Maintaining a proactive and adaptive compliance program can help the company stay ahead of regulatory changes. Investing in cleaner, more sustainable technologies can also reduce the impact of stringent environmental regulations.

Environmental risk: The specialty lubricant industry is prone to environmental risks.

Mitigation: Implementing stringent safety protocols, regular equipment maintenance, and continuous employee training can minimize the risk of accidents. The Company complies with regulations set by central, state, and municipal authorities.

Currency risk: It can cause financial loss for businesses due to exchange rate fluctuations, impacting revenues, costs and cash flows, particularly in international trade or foreign investments.

Mitigation: Currency risk mitigation strategies include hedging with tools like forward contracts and options, diversifying currency exposure, netting payables and receivables and leveraging natural hedging, to help businesses shield themselves from financial losses due to exchange rate fluctuations.

Internal control systems and adequacy

The internal control and risk management system is structured and applied in accordance with the principles and criteria established in the corporate governance code of the organisation. It is an integral part of the general organisational structure of the Company and internal auditor who reports major observations to Audit Committees. The Board of Directors offers its guidance and strategic supervision to the Executive Directors and management, monitoring and support committees. The control and risk committee and the head of the audit department work under the supervision of the Board-appointed Statutory Auditors.

Independent Auditor's Report

To the Members of **GANDHAR OIL REFINERY (INDIA) LIMITED**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **GANDHAR OIL REFINERY (INDIA) LIMITED** ('the Company'), having its **CIN No. L23200MH1992PLC068905**, which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the companies (Indian Accounting Standard) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024 its Profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the statement in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditors' Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report

Sr. No.	Key Audit Matters	Auditor Response

We selected a sample of transactions and: ○ Checked the goods receipt notes and material issue slips on a sample basis to ensure correct recording of materials receipts & consumption. ○ Tested and verified, the weighted average rate of inputs, at which consumption was recorded. ○ Tested and verified the Overhead absorption rate calculation used for inventory valuation. ○ Reviewed the process of physical verification of inventories carried out by the management at various locations by participating in the said process. ○ Verified the reports of physical verification of inventory carried out by the management and corrective actions taken to rectify the identified discrepancies (if any)

Information other than the standalone Financial statement and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those charged with Governance for the Standalone Financial Statements

The company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013("the Act") with respect to the preparation of these financial statements that give a true and fair view of the state of affairs (financial position), net profit (financial performance including Other Comprehensive Income), Changes In Equity and Cash Flows of the company in accordance with the accounting principles generally accepted in India including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Board of directors is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or

conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the standalone financial statements of the company to express an opinion on the standalone financial statements.

Materiality is the magnitude of misstatements in the Standalone Financial Results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Results may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Results.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ('the Order'), issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the **"Annexure A"**, a statement on the matters specified in paragraphs 3 and 4 of the Order

Annexure - B to the Independent Auditors' Report

(Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the members of GANDHAR OIL REFINERY (INDIA) LIMITED of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **GANDHAR OIL REFINERY (INDIA) LIMITED** ("the Company"), having its **CIN No. L23200MH1992PLC068905** as of March 31, 2024 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance

about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance

regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in

conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to Standalone Financial Statements

for the year ended March 31, 2024

1: General Information :

(i) Corporate Information

Gandhar Oil Refinery (India) limited ('The Company') was incorporated on October 7, 1992 under Companies Act, 1956 as a private limited company . The Company was subsequently converted into a public limited company on August 22, 2005. The Company is domiciled in India having registered office at 18th floor, DLH park, Goregaon (West), Mumbai -400062, Maharashtra, India. The Company is principally engaged in manufacturing and trading of petroleum products / specialty oils, trading of and providing consignment / del-credere agency services for sale of polymers to local markets. The Company has its manufacturing facilities located at MIDC Taloja, Maharashtra and Silvassa (U.T.) along with branch offices and various depots across the country.

Authorisation of financial statements

The standalone financial statements were approved for issue in accordance with a resolution of the Board of Directors passed on May 22, 2024.

(ii) Basis of Preparation

This note provides a list of the significant accounting policies adopted in the preparation and presentation of these standalone financial statements.

Compliance with Ind AS:

The standalone financial statements have been prepared to comply, in all material aspects, with the Indian Accounting Standards (Ind AS) notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013, read with Rule 3 of Companies (Indian Accounting Standards) Rules, 2015 and the relevant amendment Rules issued thereafter.

The accounting policies are applied consistently to all the periods presented in the financial statements.

Classification of assets and liabilities:

All assets and liabilities have been classified as current or non-current based on the Company's normal operating cycle and other criteria set out in Division II to Schedule III to the Companies Act, 2013.

Deferred tax assets and liabilities are classified as non-current on net basis.

For the above purposes, the Company has determined the operating cycle as twelve months based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents."

Basis of Measurement

The financial statements have been prepared on accrual and going concern basis under the historical cost convention except:

- (a) certain financial instruments (including derivative instruments) and
- (b) defined benefit plans

which are measured at fair value at the end of each reporting period, as explained in the accounting policies below

Functional and presentation currency

The financial statements are presented in Indian rupees, which is the Company's functional currency. All amounts have been rounded to the nearest millions as per requirement of Schedule III, unless otherwise stated.

Critical estimates and judgements

Preparations of the financial statements require use of accounting estimates which, by definition, will seldom equal the actual results. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

Notes to Standalone Financial Statements for the year ended March 31, 2024

The areas involving critical estimates or judgements are:

- i) Estimation of useful life of tangible assets : Note 2(1)
- ii) Estimation of defined benefit obligations: Note 34
- iii) Fair value measurements: Note 40 (ii)

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have financial impact on the company and that are believed to be reasonable under the circumstances.

Measurement of fair Values

The Company measures certain financial assets and financial liabilities including derivatives and defined benefit plans at fair value. The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing 'services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either

- a) in the principal market for the asset or liability or
- b) in the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Material Accounting Policies

The material accounting policies used in preparation of the standalone financial statements have been included in the relevant notes to the standalone financial statements.

2: Material Accounting Policies

1 Property, Plant and Equipment

(i) Recognition and Measurement :

Property, Plant and Equipment (PPE) are measured at Original cost and are net of tax / duty credit availed less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Advances paid towards the acquisition of PPE outstanding at each reporting date are classified as capital advances under Other Non-Current Assets and Property, Plant and Equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Notes to Standalone Financial Statements for the year ended March 31, 2024

Capital expenditure on tangible assets for Research and Development is classified under Property, Plant and Equipment and is depreciated on the same basis as other Property, Plant and Equipment.

Property, Plant and Equipment are eliminated from financial statement on disposal and gains or losses arising from disposal are recognised in the statement of Profit and Loss in the year of occurrence.

Lease arrangements for land are identified as finance lease, in case such arrangements result in transfer of the related risks and rewards to the Company

The cost of the property, plant and equipment's at April 01, 2016, the company's date of transition to Ind AS, was determined with reference to its carrying value at that date.

(ii) Subsequent expenditure :

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred. When Significant parts of Property, Plant and Equipment's are required to be replaced, the Company derecognises the replaced part and recognises the new part with its own associated useful life and it is depreciated accordingly.

(iii) Depreciation :

Depreciation on property, plant and equipment other than Improvements to Leasehold/Licensed Premises have been provided on straight-line method and computed with reference to the useful life of respective assets specified and in the manner prescribed in Schedule II of the Companies Act, 2013.

In case of additions/deductions to/from the property, plant and equipment made during the year, depreciation has been provided on pro-rata basis.

Leasehold land is amortized over primary lease period.

Improvements to Leasehold/Licensed Premises are depreciated on a straight-line method over the Primary Lease Period or over a period of 5 years whichever is less starting from the date when the Leasehold/Licensed Premises are put to use.

Useful life considered for calculation of depreciation (Specified in Schedule II) for various assets class are as follows:

Asset Class	Useful life
Factory Building	30 years
Non-Factory Building	60 years
Plant & Equipments	15 years
Furniture & Fixtures	10 years
Vehicles	8 years
Air Conditioners	10 years
Laboratory equipments	10 years
Office Equipments	5 years
Computers	3 years
Electrical Fittings	10 years
Improvement in Leased Asset	5 years

The residual value is not more than 5% of the original cost of the asset. Depreciation on additions / deletions is calculated pro-rata from month of such additions / deletion As the case may be. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in Statement of profit and loss.

Notes to Standalone Financial Statements for the year ended March 31, 2024

2 Investment Properties

(i) Recognition and Measurement :

Investment Property comprise of Freehold Land and Buildings.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Investment properties are derecognised either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the Statement of Profit and Loss in the period of derecognition.

The cost of the Investment properties at April 01, 2016, the company's date of transition to Ind AS, was determined with reference to its carrying value at that date.

(ii) Depreciation

Depreciation on Investment Property is provided, under the Straight Line Method, pro rata to the period of use, based on useful lives specified in Schedule II to the Companies Act, 2013.

Useful life considered for calculation of depreciation (Specified in Schedule II) for various assets class are as follows:

Asset Class	Useful life
Non-Factory Building	30 years

The residual value is not more than 5% of the original cost of the asset. Depreciation on additions / deletions is calculated pro-rata from month of such additions / deletion As the case may be. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in Statement of profit and loss.

3 Intangible Assets

(i) Recognition and measurement

Intangible assets are recognised when it is probable that future economic benefits that are attributable to concerned assets will flow to the Company and the cost of the assets can be measured reliably.

Gain or loss arising from derecognition of an intangible asset is recognised in the Statement of Profit and Loss.

(ii) Technical know-how developed by the Company-

Expenditure incurred on know-how developed by the company, post research stage, is recognized as an intangible asset, if and only if the future economic benefits attributable are probable to flow to the Company and the costs can be measured reliably."

(iii) Amortisation

Software's are stated at cost of acquisition and are amortized on straight line basis over a period of 5 years irrespective of the date of acquisition.

The cost of technical know-how developed is amortized equally over its estimated life i.e. generally three years.

The cost of the Intangible Assets at April 01, 2016, the company's date of transition to Ind AS, was determined with reference to its carrying value at that date.

4 Impairment of non-financial assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists.

If the carrying amount of the assets exceed the estimated recoverable amount, impairment is recognized for such excess amount. The impairment loss is recognized as an expense in the Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.

Notes to Standalone Financial Statements for the year ended March 31, 2024

When there is indication that an impairment loss recognized for an asset in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss.

5 Investments in Subsidiaries and Jointly Controlled Entities

Investments in subsidiaries and jointly controlled entities are carried at cost less accumulated impairment losses, if any as per Ind As 27. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, and jointly controlled entities the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

6 Inventories

- (i) Raw Materials, Traded Goods, Stores & spares, Fuel, Packing and Packaging Materials (Including in Transit) are valued at cost or net realizable value whichever is lower. The cost includes the purchase price, freight inwards and other expenditure directly attributable to the acquisition and is net of trade discounts and rebates as well as Tax benefit available, if any.
- (ii) Finished goods (including in Transit) are valued at cost or net realizable value whichever is lower. Cost includes appropriate allocation of overheads based on normal operating capacity
- (iii) Cost is arrived at on First-in-First-out basis in case of Traded goods and on moving Weighted average basis in case of other items of inventories.

7 Cash & Cash Equivalents

Cash and cash equivalents includes cash on hand , balances with banks in current accounts, and cheques/drafts on hand.

8 Assets held for Sale

Non-current assets or disposal groups comprising of assets and liabilities are classified as 'held for sale' when all of the following criteria's are met:

- (i) decision has been made to sell;
- (ii) the assets are available for immediate sale in its present condition;
- (iii) the assets are being actively marketed and
- (iv) sale has been agreed or is expected to be concluded within 12 months of the Balance Sheet date.

Subsequently, such non-current assets and disposal groups classified as held for sale are measured at the lower of its carrying value and fair value less costs to sell. Non-current assets held for sale are not depreciated or amortised.

9 Financial Assets :

(i) Initial recognition and measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument.

On initial recognition, a financial asset is recognised at fair value, in case of Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction cost is attributed to the acquisition value of the financial asset.

(ii) Subsequent measurement

Financial assets are subsequently classified and measured at

- (i) Amortised Cost
- (ii) fair Value through profit & Loss (FVTPL)
- (iii) fair Value through other comprehensive income (FVOCI)

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets."

Notes to Standalone Financial Statements for the year ended March 31, 2024

(iii) Trade Receivables and Loans

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

(iv) Debt Instruments

Debt instruments are initially measured at amortised cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of

- (i) the Company's business model for managing the financial assets and
- (ii) the contractual cash flow characteristics of the financial asset.

(a) Measured at amortised cost:

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the effective interest rate ('EIR') method less impairment, if any. The amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.

(b) Measured at fair value through other comprehensive income:

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'Other Income' in the Statement of Profit and Loss."

(c) Measured at fair value through profit or loss:

A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'Other Income' in the Statement of Profit and Loss.

(v) Equity Instruments and Mutual Fund

All investments in equity instruments classified under financial assets are initially measured at fair value, the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL.

The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

(vi) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

(vii) Impairment of Financial Asset

Expected credit losses are recognized for all debt instruments subsequent to initial recognition other than financials assets in FVTPL category.

For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain

Notes to Standalone Financial Statements for the year ended March 31, 2024

significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

10 Financial Liabilities :

(i) Initial recognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest method.

(ii) Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

(iii) Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognised less cumulative amortisation.

(iv) Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

11 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

12 Derivative financial instruments

The Company uses derivative financial instruments such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of item being hedged and the type of hedge relationship designated. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

13 Provisions and Contingent Liabilities

Provisions are recognized when the Company has a present obligation as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate of the amount of the obligation can be made. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date. The expenses relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognised as finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Notes to Standalone Financial Statements for the year ended March 31, 2024

A contingent asset is not recognised but disclosed in the financial statements where an inflow of economic benefit is probable. Commitments includes the amount of purchase orders (net of advance) issued to parties for acquisition of assets. Provisions, contingent assets, contingent liabilities and commitments are reviewed at each balance sheet date.

14 Revenue Recognition

Effective April 1 2018, the company adopted Ind AS 115 "Revenue from Contracts with Customers." The effect on adoption of IND AS 115 is insignificant.

- a. Revenue is recognised when control of goods is transferred to a customer in accordance with the terms of the contract. The control of the goods is transferred upon delivery to the customers either at factory gate of the Company or Specific location of the customer or when goods are handed over to freight carrier, as per the terms of the contract. A receivable is recognised by the Company when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due.

Revenue from services is recognised upon completion of services.

Revenue is measured based on the consideration to which the Company expects to be entitled as per contract with a customer. The consideration is determined based on the price specified in the contract, net of estimated variable consideration. Accumulated experience is used to estimate and provide for the variable consideration, using the expected value method, and revenue is recognised to the extent that it is highly probable that a significant reversal will not occur. Revenue excludes any taxes or duties collected on behalf of the government which are levied on sales such as goods and services tax.

- b. Insurance Claims are accounted when the ultimate outcome of the same is certain and amount ascertained. Till the time of uncertainty about outcome and amount of claim, their recognition is postponed.
- c. Dividends are recognised in the statement of Profit and Loss only when the right to receive payment is established; It is probable that economic benefit associated with the Dividend will flow to the company and the amount of Dividend can be measured reliably.
- d. For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that discounts the estimated future cash payments or receipts through the expected life of the financial instruments or a shorter period, where appropriate, to the net carrying amount of the financial assets. Interest income is included in other income in the Statement of Profit and Loss.
- e. Income on assets given on operating lease is recognised on a straight line basis over the lease term in the Statement of Profit and Loss.
- f. Eligible export incentives are recognised in the year in which the conditions precedent are met and there is no significant uncertainty about the collectability.

15 Employee Benefits

(i) Short Term Benefits

All employee benefits including leave encashment (short term compensated absences) and bonus/ex-gratia (incentives) payable wholly within twelve months of rendering the service are classified as short term employee benefits and are charged to the Statement of Profit and Loss of the year.

(ii) Post Employment Benefits

(a) Defined Contribution Plans

Retirement/Employee benefits in the form of Provident Fund, Employees State Insurance and labour welfare fund are considered as defined contribution plan and contributions to the respective funds administered by the Government are charged to the Statement of profit and loss of the year when the contribution to the respective funds are due

(b) Defined Benefit Plans

Retirement benefits in the form of gratuity is considered as defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made as at the date of the Balance Sheet. Gratuity liability is non-funded.

Notes to Standalone Financial Statements for the year ended March 31, 2024

Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses are recognized immediately in Other Comprehensive Income (OCI). Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in Statement of Profit and Loss.

(c) Other Long-Term Employee Benefits

As per the present policy of the Group, there are no other long term benefits to which its employees are entitled.

(d) Terminal Benefits

All terminal benefits are recognized as an expense in the period in which they are incurred

16 Leases:

At the inception of a contract, the Company assesses whether a contract is or contains, a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration. To assess whether a contract conveys the right to control the use of an asset the Company assesses whether:

The contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capability of a physical distinct asset. If the supplier has a substantive substitution right, then the asset is not identified.

The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and

The Company has the right to direct the use of the asset. The Company has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used.

As a Lessee

Right-of-use Asset

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. At the commencement date, a lessee shall measure the right-of-use asset at cost which comprises initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received, any initial direct costs incurred by the lessee; and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Lease Liability

At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate.

Short-term lease and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of less than 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The election for short-term leases shall be made by class of underlying asset to which the right of use relates. A class of underlying asset is a grouping of underlying assets of a similar nature and use in Company's operations. The election for leases for which the underlying asset is of low value can be made on a lease-by-lease basis.

17 Research and Development Expenditure

- (i) Revenue expenditure on Research & Development is charged to the Statement of Profit and Loss of the year in which it is incurred.

However, expenditure incurred at development phase, where it is reasonably certain that outcome of research will be commercially exploited to yield economic benefits to the company is considered as intangible assets and accounted in the manner specified in Clause 3 (ii) above.

Notes to Standalone Financial Statements for the year ended March 31, 2024

- (ii) Capital expenditure incurred during the year on Research & Development is included under additions to property, plant and equipment's.

18 Exceptional Items

When items of income and expense within statement of profit and loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such material items are disclosed separately as exceptional items.

19 Segment Reporting

The Chief Operational Decision Maker monitors the operating results of its business Segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit and loss and is measured consistently with profit or loss in the financial statements.

The Accounting Policies adopted for segment reporting are in line with the Accounting Policies of the Company. Segment assets include all operating assets used by the business segments and consist principally of fixed assets, trade receivables and inventories. Segment liabilities include the operating liabilities that result from the operating activities of the business.

Segment assets and liabilities that cannot be allocated between the segments are shown as part of unallocated corporate assets and liabilities respectively. Income / Expenses relating to the enterprise as a whole and not allocable on a reasonable basis to business segments are reflected as unallocated corporate income / expenses.

20 Borrowing Costs

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing. Borrowing costs that are directly attributable to the acquisition of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is put to use. Other borrowing costs are recognised as an expense in the period in which they are incurred. Borrowing costs also include exchange differences to the extent that are regarded as an adjustment to borrowing costs.

21 Foreign Exchange Transactions

- (i) The financial statements of the Company are presented in Indian Rupee (INR), which is Company's functional and presentation currency.
- (ii) Foreign currency transactions are translated into the functional currency using exchange rate prevailing on the date of transaction. Monetary assets and liabilities are translated at rate of exchange prevailing at the reporting date. The difference arising on settlement or translation on account of fluctuation in the rate of exchange is dealt within the Statement of Profit and Loss.
- (iii) Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, as finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains / (losses).
- (iv) Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Notes to Standalone Financial Statements for the year ended March 31, 2024

22 Taxes on Income

Income tax expense comprises current and deferred tax and is recognized in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity or in OCI.

(i) Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

(ii) Deferred Tax

Deferred tax is recognized in respect of temporary differences arising between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities."

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are off set where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

23 Earnings Per Share

Basic Earnings per share is calculated by dividing the net profit / (loss) for the period attributable to the equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit / (loss) for the period attributable to the equity shareholders and the weighted average number of equity shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

24 Expected Credit losses and Impairment losses on investment

The Company reviews its carrying value of investments carried at amortised cost annually or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

XXI Narrations

- Analysis of Defined Benefit obligation
The numbers of members under the scheme have increased by 8.17%. Similarly, the total salary increased by 7.87% during the accounting period. The resultant liability at the end of the period over the beginning of the period has increased by 11.49 %
- Expected rate of return basis
Scheme is not funded EORA is not Applicable
- Description of Plan Assets and Reimbursement Conditions
Not Applicable
- Investment / Interest Risk
Since the scheme is unfunded the company is not exposed to Investment / interest Risk
- Longevity Risk
The Company is not exposed to risk of the employees living longer as the benefit under scheme ceases on the employee separating from the employer for any reason.
- Risk of Salary Increase
The company is exposed to higher liability if the future salaries rise more than assumption of salary escalation.
- Discount Rate
The discount rate has increased from 7.29% to 7.10% and hence there is a decrease in liability leading to actuarial gain due to change in discount rate.

40 FINANCIAL INSTRUMENTS :

Accounting classifications and fair value measurements

(i) Accounting classifications

The fair values of the financial assets and liabilities are determined at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

The carrying amounts of trade receivables, cash and cash equivalents, bank balances, short term deposits, trade payables, payables for acquisition of property, plant and equipment, short term loans from banks, financial institutions and other current financial assets and liabilities are considered to be the same as their fair values, due to their short-term nature.

Notes to Standalone Financial Statements for the year ended March 31, 2024

40 FINANCIAL INSTRUMENTS : (Contd.)

(ii) Fair value measurements

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The following table presents carrying value and fair value of financial instruments by categories and also fair value hierarchy of assets and liabilities measured at fair value :

Note

Based on Ind AS - 109, financial Assets in the form of long term interest free deposits to related party and investment government bonds have been accounted at fair value on initial recognition and subsequently measured at amortized cost using the effective interest rate method.

The financial assets -investments in subsidiaries and associates are measured at cost in accordance with Ind AS 101, Ind AS 27 and Ind AS 28

The fair value for financial instruments such as trade receivables, cash and cash equivalents, trade payables etc. have not been disclosed because the carrying values approximate the fair value.

(iii) Description of significant observable inputs to valuation:

The following table shows the valuation techniques used to determine fair value :

TYPE	Valuation Technique
Investment in Mutual fund (Un Quoted)	Based on NAV
Investment on Government bonds	Based on discounted cash flow analysis
Security Deposits from a related party	Based on discounted cash flow analysis
Derivatives instruments	Based on FEDAI rate adjusted for interpolated spread based on residual maturity

41 FINANCIAL RISK MANAGEMENT

The Company is exposed to financial risks arising from its operations and the use of financial instruments. The Company has identified financial risks and categorised them in three parts viz.

- (i) Credit Risk,
- (ii) Liquidity Risk and
- (iii) Market Risk.

Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors are responsible for developing and monitoring the Company's risk management.

The Company's risk management framework, are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

(i) Credit Risk

Credit risk refers to the possibility of a customer and other counterparties not meeting their obligations and terms and conditions which would result into financial losses. Such risk arises mainly from trade receivables, other receivables, loans and investments. For other financial assets (including investments securities, cash and cash equivalents and derivatives), the Company minimise credit risk by dealing exclusively with high credit rating counterparties.

Credit risk is managed through internal credit control mechanism such as credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables, loans and advances. The maximum exposure to credit risk in case of all the financial instruments covered below is restricted to their respective carrying amount.

Derivatives

The Forward/option contracts were entered into with banks having an investment grade rating and exposure to counterparties is closely monitored and kept within the approved limits.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company maintains sufficient cash and cash equivalents, and internally generated cash flows to finance their activities, including maintaining the flexibility of funding through the use of credit facilities from banks. Management monitors this regularly to keep its liquidity risk to an appropriate level."

a) Financing arrangements

The Company has an adequate fund and non-fund based limits lines with various banks. The Company's diversified source of funds and strong operating cash flow enables it to maintain requisite capital structure discipline. The financing products include working capital loans like buyer's credit loan, Packing credit Loans etc.

b) Maturities of financial liabilities

(iii) Market Risk

The risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market price. Market risk further comprises of

- Currency risk,
- Interest rate risk and
- Commodity risk."

a) Currency risk

The Company is exposed to currency risk mainly on account of its import payables, short term borrowings and export receivables in foreign currency. The major exposures of the Company are in U.S. dollars. The Company hedges its import foreign exchange exposure partly through exports and depending upon the market situations partly through options and forward foreign currency covers. The Company has a policy in place for hedging its foreign currency borrowings along with interest. The Company does not use derivative financial instruments for trading or speculative purposes.

Sensitivity analysis

A reasonably possible strengthening / (weakening) of the Indian Rupee against the foreign currencies at March 31 would have affected the measurement of financial instruments denominated in foreign currencies and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Particulars	For the year ended March 31, 2024		For the year ended March 31, 2023	
	strengthening	weakening	strengthening	weakening
USD Movement (%)	1.00%	1.00%	1.00%	1.00%
EUR Movement (%)	1.00%	1.00%	1.00%	1.00%
AED Movement (%)	1.00%	1.00%	1.00%	1.00%
Impact on Profit or (loss) (₹ In Million)	1.74	(1.74)	0.32	(0.32)

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

The Management is responsible for the monitoring of the Company's interest rate position. Various variables are considered by the Management in structuring the Company's borrowings to achieve a reasonable, competitive, cost of funding.

Exposure to interest rate risk

Company's interest rate risk arises from borrowings. The interest rate profile of the Company's interest bearing financial instruments as reported to the Management of the Company is as follows:

(₹ in Million)

	As at March 31, 2024	As at March 31, 2023
Borrowings		
Fixed rate borrowings	43.69	27.75
Variable rate borrowings	231.06	132.56
Total	274.75	160.31

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 25 basis points in interest rate would have resulted in variation in the interest expense for the Company by the amounts indicated in the table below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant. This calculation also assumes that the change occurs at the balance

sheet date and has been calculated based on risk exposures outstanding as at that date. The year end balances are not necessarily representative of the average debt outstanding during the period.

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 25 basis points in interest rates at the reporting date would have increased / (decreased) profit or loss by the amounts shown below. The indicative 25 basis point (0.25%) movement is directional and does not reflect management forecast on interest rate movement.

This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

(iii) Commodity Risk

Raw Material Risk

- a. Petroleum Products Segment - Timely availability and also non-availability of good quality base oils from across the globe could negate the qualitative and quantitative production of the various products of the Company. Volatility in prices of crude oil and base oil is another major risk for this segment. The Company procures base oils from various suppliers scattered in different parts of the world. The Company tries to enter into long term supply contracts with regular suppliers and at times buys the base oils on spot basis.

Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders.

(i) Debt Equity Ratio

The Company monitors capital using debt equity ratio. The Company's debt to equity ratios are as follows:

Independent Auditor's Report

To the Members of **GANDHAR OIL REFINERY (INDIA) LIMITED**

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Gandhar Oil Refinery (India) Limited ("the Company"), its subsidiaries and joint venture except the subsidiaries and Joint ventures mentioned in other matter paragraph (the Company and its subsidiaries, joint venture together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2024, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of other auditors on separate financial statement of such subsidiaries and joint venture as were audited by the other auditors, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2024, the consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Other Matter

We did not audit the financial statement of subsidiary, Texol Lubritech FZC whose consolidated financial statement reflects total assets ₹4,272.50 million as at March 31, 2024 and Consolidated Revenue of ₹12,788.62 Million and consolidated net cash flow amounting ₹(249.07) Million for the year ended on that date as included in the consolidated Ind AS financial statements.

The above consolidated financial statement is audited by other auditors whose report have been furnished to us by the management and our opinion on the consolidated Ind AS financial statement, in so far as it relates to the amount and disclosures included in respect of the aforesaid subsidiary, our report in terms of sub-section (3) and sub-section (11) of section 143(3) of the act in so far as it relates to the aforesaid subsidiary company is based solely on such report and financial statement of the other auditor.

Our opinion on the consolidated Ind AS financial statement, and our report on other legal and regulatory requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

Further the above subsidiary located outside India whose financial statement and other financial information have been prepared accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditor under generally accepted auditing standards applicable in their respective countries. The holding company's management has converted the financial statement of such subsidiary located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustment made by the holding company's management. Our opinion, in so far as it relates to the financial information of subsidiary located outside India, is based on the reports of other auditors and the conversion adjustment prepared by the management of holding Company and audited by us

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Information Other than the Consolidated Financial Statements and Auditor's Audit Report

The Holding Company's Management and Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Holding Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we perform, we conclude that there is a material misstatement of this other information; we are required to communicate the matter to those charged with governance.

Management and Board of Directors Responsibility for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial

performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Management and Board of Directors of the companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumptions. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may

cause the Group (Company and subsidiaries) to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial statements of such entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion. Our responsibility in this regards are further described in section titled "Other Matters" in this audit report.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements of such subsidiaries as were audited by other auditor, as noted in the "Other Matters" paragraph, we report, to the extent applicable that:

We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

- a) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors.
- b) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- c) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- d) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2024 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164(2) of the Act.
- e) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies incorporated in India and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" which is based on the auditor's reports of the Company and its subsidiary companies incorporated in India.
- f) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
- In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the holding Company and subsidiary company incorporated in India to its directors during the year is in accordance with the provisions of section 197 of the Act.
- (B) With respect to the other matters to be included in the Auditor's Report in accordance with the Rule 11 of the Companies (Audit and Auditor's) Rule, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries as noted in the "Other Matter" paragraph:
- a) The consolidated financial statements disclose impact of pending litigations as on March 31, 2024 on the consolidated financial position of the Group. Refer Note - 33 to the consolidated financial statements.
- b) Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long term contracts including derivative contracts.
- c) There has been no amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its subsidiary companies incorporated in India.
- d) (i) The holding company's management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested by the Holding Company or its subsidiary companies incorporated in India to or in any other person(s) or entities, including foreign entities ("Intermediaries"), with the understanding that the intermediary shall whether directly or indirectly lend or invest in other persons or entities identified in any manner by or on behalf of the company (Ultimate Beneficiaries) or provide any guarantee, security or the like on behalf of ultimate beneficiaries;
- (ii) The holding company's management has represented that, to the best of its knowledge and belief, no funds have been received by the Holding Company or its subsidiary companies incorporated in India from any persons or entities including foreign entities ("Funding Parties") with the understanding that the Holding Company or its subsidiary companies incorporated in India, shall whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the funding party (ultimate beneficiaries) or provide guarantee, security or the like on behalf of the Ultimate beneficiaries.
- (iii) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representation under sub-clause (d) (i) and (ii) contain any material mis-statement.

- e) The dividend declared or paid during the year by the holding company is in compliance with section 123 of the Act. The subsidiary companies incorporated in India have neither declared nor paid any dividend during the year.
- f) Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rule 2014 is applicable from April 1, 2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules 2014 on preservation of audit trail as per statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2024, we have audited the internal financial controls over financial reporting of GANDHAR OIL REFINERY (INDIA) LIMITED (hereinafter referred to as “Company”) and its subsidiary companies, which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (“the ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over

Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial

control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are

subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our aforesaid report under section 143(3)(i) of the act on adequacy and operating effectiveness of the internal control over financial reporting in so far as it relates to subsidiary company Incorporated outside India, based on the reports of the respective auditor.

Our opinion is not modified in respect of the above matter.

Authorisation of financial statements

The consolidated financial statements were approved for issue in accordance with a resolution of the Board of Directors passed on May 22, 2024.

(ii) Basis of Preparation

This note provide a list of the significant accounting policies adopted in the preparation and presentation of these consolidated financial statements.

Notes to Consolidated Financial Statements for the year ended March 31, 2024

Compliance with Ind AS:

The consolidated financial statements have been prepared to comply, in all material aspects, with the Indian Accounting Standards (Ind AS) notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013, read with Rule 3 of Companies (Indian Accounting Standards) Rules, 2015 and the relevant amendment Rules issued thereafter.

The accounting policies are applied consistently to all the periods presented in the financial statements.

Classification of assets and liabilities:

All assets and liabilities have been classified as current or non-current based on the Group's normal operating cycle and other criteria set out in Division II to Schedule III to the Companies Act, 2013.

Deferred tax assets and liabilities are classified as non-current on net basis.

For the above purposes, the Group has determined the operating cycle as twelve months based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents."

Basis of Measurement

The financial statements have been prepared on accrual and going concern basis under the historical cost convention except:

- (a) certain financial instruments (including derivative instruments) and
- (b) defined benefit plans

which are measured at fair value at the end of each reporting period, as explained in the accounting policies below

Functional and presentation currency

The financial statements are presented in Indian rupees, which is the Parents functional currency. All amounts have been rounded to the nearest millions as per requirement of Schedule III, unless otherwise stated.

Critical estimates and judgements

Preparations of the financial statements require use of accounting estimates which, by definition, will seldom equal the actual results. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

The areas involving critical estimates or judgements are:

- i) Estimation of useful life of tangible assets : Note 2(1)
- ii) Estimation of defined benefit obligations: Note 35
- iii) Fair value measurements: Note 41 (ii)

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have financial impact on the group and that are believed to be reasonable under the circumstances.

Measurement of fair Values

The Group measures certain financial assets and financial liabilities including derivatives and defined benefit plans at fair value.

The Group has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

Notes to Consolidated Financial Statements for the year ended March 31, 2024

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) in the principal market for the asset or liability or
- b) in the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period."

Basis of Consolidation

Subsidiaries

Subsidiaries are all entities (including special purpose entities) that are controlled by the Company. Control exists when the Group is exposed to, or has the ability to affect those returns through power over the entity. In assessing control, potential voting rights are considered only if the rights are substantive. The financial statements of subsidiaries are included in these consolidated financial statements from the date that control commences until the date that control ceases.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year. The financial statements of the Company and its subsidiaries have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after eliminating intra-group balances, intra-group transactions and the unrealised profits/ losses, unless cost/revenue cannot be recovered.

In case of Foreign Subsidiaries, Translation of financial statements into Indian Rupees is carried as follows:-

- Current assets have been translated in accounts at exchange rate ruling at the year end.
- All liabilities have been translated in accounts at exchange rate ruling at the year end.
- Income and expenses have been translated in accounts at average rate for the period.
- The resultant exchange differences arising on translation are recognised in Other Comprehensive Income.

Goodwill / Capital Reserve on consolidation

The excess of cost to the Parent Company of its investment in subsidiaries over its portion of equity in the subsidiaries at the respective dates on which investment in subsidiaries was made is recognised in the financial statements as goodwill and vice versa is recognised in financial statements as capital reserve. The Parent Company's portion of equity in the subsidiaries is determined on the basis of the value of assets and liabilities as per the financial statements of the subsidiaries as on the date of investment.

Jointly controlled entities (equity accounted investees)

Joint arrangements are those arrangements over which the Group has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions. Investments in jointly controlled entities are accounted

Notes to Consolidated Financial Statements for the year ended March 31, 2024

for using the equity method (equity accounted investees) and are initially recognised at cost. The carrying value of the Group's investment includes goodwill identified on acquisition, net of any accumulated impairment losses. The Group does not consolidate entities where the non-controlling interest ("NCI") holders have certain significant participating rights that provide for effective involvement in significant decisions in the ordinary course of business of such entities. Investments in such entities are accounted by the equity method of accounting. When the Group's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest (including any long-term investments) is reduced to zero and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee. If the extent that the Group has an obligation or has made payments on behalf of the investee. If the joint venture subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the joint venture and its carrying value, and then recognises the loss as 'Share of profit of an associate and a joint venture' in the statement of profit or loss.

Enterprises Consolidated as Subsidiary in accordance with Ind AS 110 – Consolidated Financial Statements.

Name of Subsidiary	Date of Incorporation	Proportion of Ownership Interest	Nature of Business
Gandhar Shipping and Logistics Private Limited	May 13, 2010	100%	Logistics Services
Gandhar Foundation	June 05, 2023	100%	focusing on CSR initiative
Texol Lubritech FZC**	June 22, 2017	50:10%	Manufacture speciality oils and lubricants

*Became subsidiary from Joint Venture w.e.f. March 30, 2022

The material accounting policies used in preparation of the consolidated financial statements have been included in the relevant notes to the consolidated financial statements.

2: Material Accounting Policies

1 Property, Plant and Equipment

(i) Recognition and Measurement:

Property, Plant and Equipment (PPE) are measured at Original cost and are net of tax / duty credit availed less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Advances paid towards the acquisition of PPE outstanding at each reporting date are classified as capital advances under Other Non-Current Assets and Property, Plant and Equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Capital expenditure on tangible assets for Research and Development is classified under Property, Plant and Equipment and is depreciated on the same basis as other Property, Plant and Equipment.

Property, Plant and Equipment are eliminated from financial statement on disposal and any gains or losses arising from disposal are recognised in the statement of Profit and Loss in the year of occurrence.

Lease arrangements for land are identified as finance lease, in case such arrangements result in transfer of the related risks and rewards to the group.

Notes to Consolidated Financial Statements for the year ended March 31, 2024

The cost of the property, plant and equipment's at April 01, 2016, the Group's date of transition to Ind AS, was determined with reference to its carrying value at that date.

(ii) Subsequent expenditure :

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred. When Significant parts of Property, Plant and Equipment's are required to be replaced, the group derecognises the replaced part and recognises the new part with its own associated useful life and it is depreciated accordingly.

(iii) Depreciation :

Depreciation on property, plant and equipment other than Improvements to Leasehold/Licensed Premises have been provided on straight-line method and computed with reference to the useful life of respective assets specified and in the manner prescribed in Schedule II of the Companies Act, 2013.

In case of additions/deductions to/from the fixed assets made during the year, depreciation has been provided on pro-rata basis.

Leasehold land is amortized over primary lease period.

Improvements to Leasehold/Licensed Premises are depreciated on a straight-line method over the Primary Lease Period or over a period of 5 years whichever is less starting from the date when the Leasehold/Licensed Premises are put to use.

Useful life considered for calculation of depreciation (Specified in Schedule II) for various assets class are as follows:

Asset Class	Useful life
Factory Building	30 years
Non-Factory Building	60 years
Plant & Equipments	15 years
Furniture & Fixtures	10 years
Vehicles	8 years
Air Conditioners	10 years
Laboratory equipments	10 years
Office Equipments	5 years
Computers	3 years
Electrical Fittings	10 years
Improvement in Leased Asset	5 years

The residual value is not more than 5% of the original cost of the asset. Depreciation on additions / deletions is calculated pro-rata from month of such additions / deletion as case the may be. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in Statement of profit and loss.

2 Investment Property

(i) Recognition and Measurement :

Investment Property comprise of Freehold Land and Buildings.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Notes to Consolidated Financial Statements for the year ended March 31, 2024

Investment properties are derecognised either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the Statement of Profit and Loss in the period of derecognition.

The cost of the Investment properties at April 01, 2016, the Group's date of transition to Ind AS, was determined with reference to its carrying value at that date.

(ii) Depreciation

Depreciation on Investment Property is provided, under the Straight Line Method, pro rata to the period of use, based on useful lives specified in Schedule II to the Companies Act, 2013.

Useful life considered for calculation of depreciation (Specified in Schedule II) for various assets class are as follows:

Asset Class	Useful life
Non-Factory Building	30 years

3 Intangible Assets

(i) Recognition and measurement

Intangible assets are recognised when it is probable that future economic benefits that are attributable to concerned assets will flow to the Group and the cost of the assets can be measured reliably.

Gain or loss arising from derecognition of an intangible asset is recognised in the Statement of Profit and Loss.

(ii) Technical know-how developed by the Group-

Expenditure incurred on know-how developed by the Group, post research stage, is recognized as an intangible asset, if and only if the future economic benefits attributable are probable to flow to the Group and the costs can be measured reliably."

(iii) Amortisation

Software's are stated at cost of acquisition and are amortized on straight line basis over a period of 5 years irrespective of the date of acquisition.

The cost of technical know-how developed is amortized equally over its estimated life i.e. generally three years.

The cost of the Intangible Assets at April 01, 2016, the Group's date of transition to Ind AS, was determined with reference to its carrying value at that date.

4 Impairment of non-financial assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists.

If the carrying amount of the assets exceed the estimated recoverable amount, impairment is recognized for such excess amount. The impairment loss is recognized as an expense in the Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.

When there is indication that an impairment loss recognized for an asset in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss

5 Inventories

- (i) Raw Materials, Traded Goods, Stores & spares, Fuel, Packing and Packaging Materials (Including in Transit) are valued at cost or net realizable value whichever is lower. The cost includes the purchase price, freight inwards and other expenditure directly attributable to the acquisition and is net of trade discounts and rebates as well as Tax benefit available, if any.

Notes to Consolidated Financial Statements for the year ended March 31, 2024

- (ii) Finished goods (including in Transit) are valued at cost or net realizable value whichever is lower. Cost includes appropriate allocation of overheads based on normal operating capacity
- (iii) Cost is arrived at on Batch basis in case of Non-coking coal and on moving Weighted average basis in case of other items of inventories.

6 Cash & Cash Equivalents

Cash and cash equivalents includes cash on hand , balances with banks in current accounts and cheques/drafts on hand.

7 Assets held for Sale

Non-current assets or disposal groups comprising of assets and liabilities are classified as 'held for sale' when all of the following criteria's are met:

- (i) decision has been made to sell;
- (ii) the assets are available for immediate sale in its present condition;
- (iii) the assets are being actively marketed and
- (iv) sale has been agreed or is expected to be concluded within 12 months of the Balance Sheet date.

Subsequently, such non-current assets and disposal groups classified as held for sale are measured at the lower of its carrying value and fair value less costs to sell. Non-current assets held for sale are not depreciated or amortised.

8 Financial Assets :

(i) Initial recognition and measurement

Financial assets are recognised when the Group becomes a party to the contractual provisions of the instrument.

On initial recognition, a financial asset is recognised at fair value, in case of Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction cost is attributed to the acquisition value of the financial asset.

(ii) Subsequent measurement

Financial assets are subsequently classified and measured at

- (i) Amortised Cost
- (ii) Fair Value through profit & Loss (FVTPL)
- (iii) Fair Value through other comprehensive income (FVOCI)

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Group changes its business model for managing financial assets."

(iii) Trade Receivables and Loans

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

(iv) Debt Instruments

Debt instruments are initially measured at amortised cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of

- (i) the Group's business model for managing the financial assets and
- (ii) the contractual cash flow characteristics of the financial asset."

Notes to Consolidated Financial Statements for the year ended March 31, 2024

- (a) Measured at amortised cost: Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the effective interest rate ('EIR') method less impairment, if any. The amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.
- (b) Measured at fair value through other comprehensive income: Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'Other Income' in the Statement of Profit and Loss.
- (c) Measured at fair value through profit or loss: A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'Other Income' in the Statement of Profit and Loss.

(v) Equity Instruments and Mutual Fund

All investments in equity instruments classified under financial assets are initially measured at fair value, the Group may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL.

The Group makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as other income in the Statement of Profit and Loss unless the Group has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

(vi) Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

(vii) Impairment of Financial Asset

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financials assets in FVTPL category.

For financial assets other than trade receivables, as per Ind AS 109, the Group recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Group's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

9 Financial Liabilities :

(i) Initial recognition and measurement

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest method.

Notes to Consolidated Financial Statements for the year ended March 31, 2024

(ii) Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

(iii) Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognised less cumulative amortisation.

(iv) Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

10 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

11 Derivative financial instruments

The Parent Company uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of item being hedged and the type of hedge relationship designated.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

12 Provisions and Contingent Liabilities

Provisions are recognized when the Group has a present obligation as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate of the amount of the obligation can be made. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date. The expenses relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognised as finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

A contingent asset is not recognised but disclosed in the financial statements where an inflow of economic benefit is probable.

Commitments includes the amount of purchase orders (net of advance) issued to parties for acquisition of assets. Provisions, contingent assets, contingent liabilities and commitments are reviewed at each balance sheet date."

13 Revenue Recognition

Effective April 1 2018, the group adopted Ind AS 115 "Revenue from Contracts with Customers." The effect on adoption of IND AS 115 is insignificant.

Notes to Consolidated Financial Statements for the year ended March 31, 2024

- a. Revenue is recognised when control of goods is transferred to a customer in accordance with the terms of the contract. The control of the goods is transferred upon delivery to the customers either at factory gate of the Group or Specific location of the customer or when goods are handed over to freight carrier, as per the terms of the contract. A receivable is recognised by the Group when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due.

Revenue from service activities/ Logistics contracts (cargo handling contracts and transport contracts) are recognized upon completion of services.

Revenue is measured based on the consideration to which the Group expects to be entitled as per contract with a customer. The consideration is determined based on the price specified in the contract, net of estimated variable consideration. Accumulated experience is used to estimate and provide for the variable consideration, using the expected value method, and revenue is recognised to the extent that it is highly probable that a significant reversal will not occur. Revenue excludes any taxes or duties collected on behalf of the government which are levied on sales such as goods and services tax.

- b. Insurance Claims are accounted when the ultimate outcome of the same is certain and amount ascertained. Till the time of uncertainty about outcome and amount of claim, their recognition is postponed.
- c. Dividends are recognised in the statement of Profit and Loss only when the right to receive payment is established; It is probable that economic benefit associated with the Dividend will flow to the group and the amount of Dividend can be measured reliably.
- d. For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that discounts the estimated future cash payments or receipts through the expected life of the financial instruments or a shorter period, where appropriate, to the net carrying amount of the financial assets. Interest income is included in other income in the Statement of Profit and Loss.
- e. Income on assets given on operating lease is recognised on a straight line basis over the lease term in the Statement of Profit and Loss.
- f. "Eligible export incentives are recognised in the year in which the conditions precedent are met and there is no significant uncertainty about the collectability.

14 Employee Benefits

(i) Short Term Benefits

All employee benefits including leave encashment (short term compensated absences) and bonus/ex-gratia (incentives) payable wholly within twelve months of rendering the service are classified as short term employee benefits and are charged to the Statement of Profit and Loss of the year.

(ii) Post Employment Benefits

(a) Defined Contribution Plans

Retirement/Employee benefits in the form of Provident Fund, Employees State Insurance and labour welfare fund are considered as defined contribution plan and contributions to the respective funds administered by the Government are charged to the Statement of profit and loss of the year when the contribution to the respective funds are due.

(b) Defined Benefit Plans

Retirement benefits in the form of gratuity is considered as defined benefit obligation and in case of Parent company, is provided for on the basis of an actuarial valuation on projected unit credit method made as at the date of the Balance Sheet and in case of a Subsidiary company, is provided at current salary rates. Gratuity liability is non-funded.

Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses are recognized immediately in Other Comprehensive Income (OCI). Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in Statement of Profit and Loss.

Notes to Consolidated Financial Statements for the year ended March 31, 2024

(c) Other Long-Term Employee Benefits

As per the present policy of the Group, there are no other long term benefits to which its employees are entitled.

(d) Terminal Benefits

All terminal benefits are recognized as an expense in the period in which they are incurred

15 Lease :

At the inception of a contract, the Group assesses whether a contract is or contains, a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration. To assess whether a contract conveys the right to control the use of an asset the Group assesses whether:

The contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capability of a physical distinct asset. If the supplier has a substantive substitution right, then the asset is not identified.

The Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and

The Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used.

As a Lessee

Right-of-use Asset

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. At the commencement date, a lessee shall measure the right-of-use asset at cost which comprises initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received, any initial direct costs incurred by the lessee; and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Lease Liability

At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate.

Short-term lease and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of less than 12 months or less and leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The election for short-term leases shall be made by class of underlying asset to which the right of use relates. A class of underlying asset is a grouping of underlying assets of a similar nature and use in Group's operations. The election for leases for which the underlying asset is of low value can be made on a lease-by-lease basis.

16 Research and Development Expenditure

- (i) Revenue expenditure on Research & Development is charged to the Statement of Profit and Loss of the year in which it is incurred.

However, expenditure incurred at development phase, where it is reasonably certain that outcome of research will be commercially exploited to yield economic benefits to the Group is considered as intangible assets and accounted in the manner specified in Clause 3 (ii) above.

Notes to Consolidated Financial Statements for the year ended March 31, 2024

- (ii) Capital expenditure incurred during the year on Research & Development is included under additions to property, plant and equipment."

17 Exceptional Items

When items of income and expense within statement of profit and loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such material items are disclosed separately as exceptional items.

18 Segment Reporting

The Chief Operational Decision Maker monitors the operating results of its business Segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit and loss and is measured consistently with profit or loss in the financial statements.

The Accounting Policies adopted for segment reporting are in line with the Accounting Policies of the Group. Segment assets include all operating assets used by the business segments and consist principally of fixed assets, trade receivables and inventories. Segment liabilities include the operating liabilities that result from the operating activities of the business.

Segment assets and liabilities that cannot be allocated between the segments are shown as part of unallocated corporate assets and liabilities respectively. Income / Expenses relating to the enterprise as a whole and not allocable on a reasonable basis to business segments are reflected as unallocated corporate income / expenses.

19 Borrowing Costs

Borrowing costs are interest and other costs that the Group incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing. Borrowing costs that are directly attributable to the acquisition of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is put to use. Other borrowing costs are recognised as an expense in the period in which they are incurred. Borrowing costs also include exchange differences to the extent that are regarded as an adjustment to borrowing costs.

20 Foreign Exchange Transactions

- (i) The financial statements of the Group are presented in Indian Rupee (INR), which is Group's functional and presentation currency.
- (ii) Foreign currency transactions are translated into the functional currency using exchange rate prevailing on the date of transaction. Monetary assets and liabilities are translated at rate of exchange prevailing at the reporting date. The difference arising on settlement or translation on account of fluctuation in the rate of exchange is dealt within the Statement of Profit and Loss.
- (iii) Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, as finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains / (losses).
- (iv) Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Notes to Consolidated Financial Statements for the year ended March 31, 2024

21 Taxes on Income

Income tax expense comprises current and deferred tax and is recognized in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity or in OCI.

(i) Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

(ii) Deferred Tax

Deferred tax is recognized in respect of temporary differences arising between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are off set where the Group has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

22 Earnings Per Share

Basic Earnings per share is calculated by dividing the net profit / (loss) for the period attributable to the equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit / (loss) for the period attributable to the equity shareholders and the weighted average number of equity shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

23 Expected Credit losses and Impairment losses on investment

The Group reviews its carrying value of investments carried at amortised cost annually or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

Notes

- a) The group has leasing arrangements for its office premises -head office and certain plots . Non-cancellable period for those lease arrangements vary. The group pays lease charges as fixed amount as per the respective lease agreements. In respect of Ind AS 116 - Leases, the parent company has adopted modified retrospective method under which the cumulative effect of initial application is recognized in retained earnings at 1st April 2019. Right-of-use asset is measured, on a lease by lease basis, at carrying amount assuming the standard is applied since the commencement date. Discounting to arrive the value of asset is done based on the incremental borrowing rate at the date of initial application.

The Group has leasing arrangements for its various commercial premises (other than mentioned above). Non-cancellable period for those leasing arrangements are less than 12 months and the Group elected to apply the recognition exemption for short term leases and leases for which the underlying assets is of low value. The lease amount is charged as rent.

XXI Narrations

1 Analysis of Defined Benefit obligation

The numbers of members under the scheme have increased by 8.17%. Similarly, the total salary increased by 7.87% during the accounting period. The resultant liability at the end of the period over the beginning of the period has increased by 11.49 %

2 Expected rate of return basis

Scheme is not funded EORA is not Applicable

3 Description of Plan Assets and Reimbursement Conditions

Not Applicable

4 Investment / Interest Risk

Since the scheme is unfunded the parent company is not exposed to Investment / interest Risk

5 Longevity Risk

The Parent Company is not exposed to risk of the employees living longer as the benefit under scheme ceases on the employee separating from the employer for any reason.

6 Risk of Salary Increase

The Parent Company is exposed to higher liability if the future salaries rise more than assumption of salary escalation.

7 Discount Rate

The discount rate has increased from 7.29% to 7.10% and hence there is a decrease in liability leading to actuarial gain due to change in discount rate.

41 FINANCIAL INSTRUMENTS : Accounting classifications and fair value measurements

(i) Accounting classifications

The fair values of the financial assets and liabilities are determined at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

The carrying amounts of trade receivables, cash and cash equivalents, bank balances, short term deposits, trade payables, payables for acquisition of property, plant and equipment, short term loans from banks, financial institutions and other current financial assets and liabilities are considered to be the same as their fair values, due to their short-term nature.

(ii) Fair value measurements

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The following table presents carrying value and fair value of financial instruments by categories and also fair value hierarchy of assets and liabilities measured at fair value :

Note

Based on Ind AS - 109, financial Assets in the form of long term interest free deposits to related party and investment government bonds have been accounted at fair value on initial recognition and subsequently measured at amortized cost using the effective interest rate method.

The financial assets - investments in Joint Ventures are measured at cost in accordance with Ind AS 101 and Ind AS 28

The fair value for financial instruments such as trade receivables, cash and cash equivalents, trade payables etc. have not been disclosed because the carrying values approximate the fair value.

(iii) Description of significant observable inputs to valuation:

The following table shows the valuation techniques used to determine fair value :

Type	Valuation Technique
Investment in Mutual fund (Un Quoted)	Based on NAV
Investment on Government bonds	Based on discounted cash flow analysis
Security Deposits from a related party	Based on discounted cash flow analysis
Derivatives instruments	Based on FEDAI rate adjusted for interpolated spread based on residual maturity

42 FINANCIAL RISK MANAGEMENT

The Group is exposed to financial risks arising from its operations and the use of financial instruments. The Group has identified financial risks and categorised them in three parts viz.

- (i) Credit Risk,
- (ii) Liquidity Risk and
- (iii) Market Risk.

Risk management framework

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The board of directors are responsible for developing and monitoring the Group's risk management.

The Group's risk management framework, are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

(i) Credit Risk

Credit risk refers to the possibility of a customer and other counterparties not meeting their obligations and terms and conditions which would result into financial losses. Such risk arises mainly from trade receivables, other receivables, loans and investments. For other financial assets (including investments securities, cash and cash equivalents and derivatives), the Group minimise credit risk by dealing exclusively with high credit rating counterparties.

Credit risk is managed through internal credit control mechanism such as credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Group grants credit terms in the normal course of business. The Group establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables, loans and advances. The maximum exposure to credit risk in case of all the financial instruments covered below is restricted to their respective carrying amount.

Trade Receivables

42 FINANCIAL RISK MANAGEMENT (Contd.)

Investments

The Group invests its surplus funds mainly in liquid schemes of mutual funds which carry no / low mark to market risks for short duration and therefore, does not expose the Group to credit risk. Such investments are made after reviewing the credit worthiness and market standing of such funds and therefore, does not expose the Group to credit risk. Such investments are monitored on a regular basis.

Loans and other financial assets

Loans and other financial assets includes other receivables, loans given and earnest money deposits/security deposits to customers, security deposits for premises taken on lease. These loans and deposits were made in continuation of business related activities and are made after review as per companies policy.

Cash and cash equivalents

The cash and cash equivalents are held with banks with good credit ratings. Also, the Group invests its surplus funds in bank fixed deposits and liquid schemes of mutual funds, which carry no / low mark to market risks for short duration and therefore, does not expose the Group to credit risk.

Derivatives

The Forward/option contracts were entered into with banks having an investment grade rating and exposure to counterparties is closely monitored and kept within the approved limits.

(ii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group maintains sufficient cash and cash equivalents, and internally generated cash flows to finance their activities, including maintaining the flexibility of funding through the use of credit facilities from banks. Management monitors this regularly to keep its liquidity risk to an appropriate level.

a) Financing arrangements

The Group has an adequate fund and non-fund based limits lines with various banks. The Group's diversified source of funds and strong operating cash flow enables it to maintain requisite capital structure discipline. The financing products include working capital loans like buyer's credit loan, Packing credit Loans etc.

b) Maturities of financial liabilities

The amounts disclosed in the table are the contractual undiscounted cash flows

(iii) Market Risk

The risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market price. Market risk further comprises of

- Currency risk ,
- Interest rate risk and
- Commodity risk."

a) Currency risk

The Group is exposed to currency risk mainly on account of its import payables, short term borrowings and export receivables in foreign currency. The major exposures of the Group are in U.S. dollars. The Group hedges its import foreign exchange exposure partly through exports and depending upon the market situations partly through options and forward foreign currency covers. The Group has a policy in place for hedging its foreign currency borrowings along with interest. The Group does not use derivative financial instruments for trading or speculative purposes.

Sensitivity analysis

A reasonably possible strengthening / (weakening) of the Indian Rupee against the foreign currencies at March 31 would have affected the measurement of financial instruments denominated in foreign currencies and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

The Management is responsible for the monitoring of the Group's interest rate position. Various variables are considered by the Management in structuring the Group's borrowings to achieve a reasonable, competitive, cost of funding..

Exposure to interest rate risk

Group's interest rate risk arises from borrowings. The interest rate profile of the Group's interest bearing financial instruments as reported to the Management of the Group is as follows:

	As at March 31, 2024	As at March 31, 2023
Borrowings		
Fixed rate borrowings	43.69	27.75
Variable rate borrowings	1,987.74	1,667.51
	2,031.42	1,695.25

(₹ in Million)

Fair value sensitivity analysis for fixed-rate instruments

The Group does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rate would have resulted in variation in the interest expense for the Group by the amounts indicated in the table below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant. This calculation also assumes that the change occurs at the balance sheet date and has been

calculated based on risk exposures outstanding as at that date. The year end balances are not necessarily representative of the average debt outstanding during the period.

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 25 basis points in interest rates at the reporting date would have increased / (decreased) profit or loss by the amounts shown below. The indicative 25 basis point (0.25%) movement is directional and does not reflect management forecast on interest rate movement.

This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

(iii) Commodity Risk

Raw Material Risk

Petroleum Products Segment - Timely availability and also non-availability of good quality base oils from across the globe could negate the qualitative and quantitative production of the various products of the Group. Volatility in prices of crude oil and base oil is another major risk for this segment. The Group procures base oils from various suppliers scattered in different parts of the world. The Group tries to enter into long term supply contracts with regular suppliers and at times buys the base oils on spot basis.

Capital management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders.

(i) Debt Equity Ratio

The Group monitors capital using debt equity ratio. The Group's debt to equity ratios are as follows:

	As at March 31, 2024	As at March 31, 2023

Offsetting arrangements

Derivatives

The Parent company enters into derivative contracts for hedging foreign exchange exposures. Agreements with derivative counterparties are based on an ISDA Master Agreement. Under the terms of these arrangements, only where certain credit events occur (such as default), the net position owing | receivable to a single counterparty in the same currency will be taken as owing and all the relevant arrangements terminated. As the company does not presently have a legally enforceable right of set-off, these amounts have not been offset in the Balance Sheet.
